Panel-Oven Engineering, Inc.
1976 to 1979 - Engineering Technician
Haller Testing Laboratories, Inc.

REPRESENTATIVE PROJECT EXPERIENCE

Mr. Taylor has over 25 years of experience in soils and construction materials testing both in the laboratory and field. He specializes in forensic studies and failure analysis of structural elements, slabs, roofs, pavements, paints, coatings, bonding agents, flooring and waterproofing systems. He has broad knowledge of Federal, State and Municipal construction standards and codes including structural as well as environmental requirements.

Mr. Taylor is expert in sampling of construction materials for forensic studies and in field adaptation of testing methods. He is responsible for client contact and coordination on most projects and supervises teams of staff technicians in field sampling and laboratory testing. He is also responsible for preparation of technical reports, data analysis and summary report preparation.
